

2014 - 2015

**20** TWENTY  
Accessory Source Ltd.  
[www.2020as.com](http://www.2020as.com)

1. Do you offer the same products as your competitors?

2. Do you purchase online and ask your customers to purchase from you?

3. Are you supporting your competitor's business?

## Golden Rules of Marketing:

1. Differentiate.

2. Strategy is everything.

3. Your word is your promise.

4. Focus. One customer at a time.

5. Practice what you preach.

6. Perception is customer reality.

4. Are your customers priceshopping and showrooming?

5. Are your customers more confident with their own research or yours?

6. Do you rely on your competitors to introduce breakthrough products?

7. Are you having trouble getting customers to stay loyal?

**If you answered "YES" to any of these questions, contact 20/20...  
The leader in INTELLIGENT MARKETING STRATEGIES.**

If the world is such a diverse place, why are so many products the same? At 20/20 we are dedicated to making superior quality products that are as rich and distinct as the world around us. We defy convention and dare to be extraordinary – that is why we have become the destination for unique products.

If you crave products that take you where you haven't been, and are new to everyone's eyes and minds, contact 20/20 Accessory Source - we will bring it all into focus.

**LENS CLEANING CLOTHS**Introducing another first by **20**  
TWENTY  
Accessory Source Ltd.*New***ANTIMICROBIAL  
LENS CLEANING  
CLOTH**

Our most advanced lens cleaning cloth has antimicrobial technology built-in during the manufacturing process and lasts for up to 30 wash cycles. This new antimicrobial cloth features a formula which attracts microbes, killing bacteria upon impact. This highly advanced protection prevents microbe and bacteria build up without the need of any special cleaning solutions. Fight mould, mildew, and the transfer of contaminants from surface to skin with the 20/20 Antimicrobial.

- Available in boxes of 100.  
(1 colour per box).
- Custom printing available.

20/20 ULTRA lens cleaning cloth is a high-tech lens cloth composed of 80% polyester, 20% nylon and is woven with ultra fine micro fibers using the most advanced technology. 20/20 ULTRA is lint free and removes grease, make-up and dust from all types of lenses with ease. Use with or without a liquid cleaner. When 20/20 ULTRA fails to remove smudges just wash in warm water with detergent and air dry.

**Custom printing available with minimum quantities of 100.**

**A/R LENS CLEANER**

Custom Logos available on all sizes

Ask how you can receive your logo for free

**PROTEKT™ A/R LENS CLEANER**

Backed by several coating labs, Protekt™ for A/R lens cleaner has been safely tested and will not harm a coated surface on a lens. Although it was specifically developed for anti-reflective lenses, it can be used on all plastic and glass lenses. We recommend cleaning your lenses once a day with Protekt™ for A/R and wiping dry with a Protekt™ Ultra Lens Cleaning Cloth. This process will leave a slick, smooth surface on the lens making them resistant to smudging and easier to wipe throughout the day.

## Clip-On Fitting Kit

The 42 piece Cocoons® fitting kit features an integrated sizing guide keeping clips organized and accessible. Ask how you can receive this product free.

Cocoons® clip-ons sunwear collection features scratch-resistant, optically correct Polaré® lenses that completely eliminate glare and eradicate harsh UV light.

Cocoons® clip-ons feature:

- ▶ Polaré® Polarized Lenses
- ▶ UV400 Protection
- ▶ Scratch Resistant
- ▶ Freeflow™ Bridge System

### WARRANTY INFO:

Cocoons® clip-ons have a limited lifetime warranty against any defect in materials or workmanship, exclusive of damage caused by improper or unreasonable use. The warranty does not apply to regular wear, including lens breakage or scratching. Any alteration or modification to the original product will void the warranty.

# VISTANA™

Vistana™ features patented frame designs that incorporate the Polaré® lens system featuring DBT™ (Dynamic Base Technology) to eliminate the side-shields traditionally associated with OverRx sunglasses. The new revolutionary frame architecture delivers an unobstructed, panoramic view that is not available in current OverRx styles.

The Vistana™ collection offers optically correct, scratch-resistant grey or amber polarized lenses. All frames feature Flex2Fit® adjustable temples for extended wear, comfort and a secure fit.

Scratch resistant Polaré® lenses block 100% of harmful UV rays and eliminate harsh glare allowing your eyes to remain relaxed and focused.

FLEX2FIT® temples allow for customized adjustment of the temples, delivering a secure and comfortable fit, even during extended wear.

Engineered to fit over various shapes and sizes of prescription eyewear, luxuriously providing 360° of advanced UV Protection.

# COCOONS®

s u n w e a r

Cocoons® are offered in several patented styles that are precision engineered using OverRx® design principles to deliver 360° of Advanced UV Protection®. All Cocoons® sunglasses feature Polaré® polarized lenses that provide complete protection from the harmful effects of UV A & B rays, and cut through harsh glare. Adjustable Flex2Fit® temples deliver a precise fit that eliminates discomfort when worn for prolonged periods of time. The patented styles are lightweight and extremely durable, a statement reiterated by the Cocoons® limited lifetime warranty.

## WARRANTY INFO:

Vistana™, Cocoons® and Cocoons® Low Vision Sunglasses have a limited lifetime warranty to the original purchaser against any defect in materials or workmanship, exclusive of damage caused by improper or unreasonable use. The lifetime warranty applies to the frames only. The lenses are guaranteed to be free from manufacturers defect and remain scratch-resistant for a period of one year from original date of purchase, exclusive of damage caused by improper or unreasonable use.

Polycarbonate side shields. Permanently injected for the lifetime of the frame!

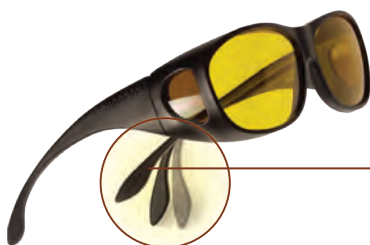

Optically correct polarized Polaré® lenses. Genuine scratch-resistance... test and compare with our competitors!

Ultra lightweight Soft Touch™ frame. 30% lighter than comparable products! Lifetime warranty. Bend it, twist it, it won't break!

Isolate the eyes in 360° of protection. The patented designs completely shelter the eyes from the elements!

FLEX2FIT® temples. Adjustable for a perfect fit every time!

The redesigned Cocoons® frame bears the OverRx® Authenticity emblem on the inside on the temple to provide retailers and consumers with an easily identifiable symbol for a superior grade product.

LOW VISION

**Frame Colours:**

■ Black only

**Lens Colours:**

- Lemon
- Orange
- Hazelnut
- Boysenberry

## LEMON

Maximizes brightness and enhances contrast in low light conditions to improve visual acuity. The lens allows 82% light transmission and provides 100% UVA/UVB protection. Blocks 40% of blue light and all visible light up to 470nm.

## ORANGE

Maximizes contrast enhancement by intensifying backgrounds to improve object definition and clarity. The lens allows 34% light transmission and provides 100% UVA/UVB protection. Blocks 100% of blue light and all visible light up to 520nm.

## HAZELNUT

Reduces glare and provides heightened contrast when used for indoor and outdoor applications. Ideal for variable light conditions requiring both glare control and contrast enhancement. The lens allows 18% visible light transmission and provides 100% UVA/UVB protection. Blocks 98% of blue light and all visible light up to 410nm.

## BOYSENBERRY

General purpose lens tint that is great for indoor and outdoor use. The darker tint provides effective glare control. This lens is not designed to block blue light, so it provides minimal contrast enhancement. The lens allows 15% visible light transmission and provides 100% UVA/UVB protection. Blocks all visible light up to 410nm.

# ADULT SWIM GOGGLES

**A**

**B**

Clear Strap Available

Available Powers:				
Plano	-3.0	-5.0		
-1.5	-3.5	-5.5	-7.0	
-2.0	-4.0	-6.0	-9.0	
-2.5	-4.5	-6.5	-10.0	

Includes 3 different nosebelt sizes

**PLEASE NOTE:**  
If swim goggles are custom made per customer's request, they will be non-returnable.  
**\* DO NOT WIPE LENSES. Please read care instructions.**

**FEATURES OF SABLE SWIM GOGGLES**

- 1 Unchanged vision above or under water. Contact surface with water is absolutely flat. Conforms to aqua-optical standards. Non-distortion, high precision lenses. Refraction minimized to within 0.125 D. All components silicone.
- 2 Conforms to pupil distance of most near-sighted people. Oval lens. Focal point is offset 4mm to give a wider field of view. Small, medium, or large size nosebelt available. Small fits PD 61mm, Medium fits 64mm, Large fits 67mm. 3mm tolerance creates effective PD range of 58mm to 70mm.
- 3 Anti-fog guarantee. Japanese anti-fog film guarantees clear vision for over 100 hours.
- 4 Stylish fixed nosebelt. The lower edge of nosebelt is chamfered for added comfort and better fit. Three sizes of the nosebelt are included and are designed based on PD. The nosebelt is easily taken on and off.
- 5 High quality spare parts. 100% silicone gasket and head strap are non-toxic, non-odorous, and non-allergenic. Flexibility of parts extends product life and silicone material provides a superior seal.
- 6 Lens hard coating. Polycarbonate optical lens is virtually unbreakable with a high gloss, hard coating with UV protection. Comfort tinted lenses have a luminous transmittance of 91% and are designed to cut glare from the sun or indoor fluorescent lights.
- 7 One-touch buckle design. Goggle can be removed without tangling in user's hair.
- 8 Separate eyecups are available to match different powered prescriptions.

# DIVE MASK

Lightweight with an adjustable head strap for comfort. This dive mask is extremely durable with an exceptional field of vision suitable for both snorkeling and diving. Comes equipped with glass lenses. Available in both plano and Rx. Rx model is non-returnable after Rx insertion.

**Warranty:** Product made in China may carry a warranty up to 1 year based on the product. Any parts that are defective or fail within the warranty period must be returned to 20/20 Accessory Source Ltd. and inspected to determine if your part or item is to be repaired or replaced with an item of equal or lesser value. In some cases you may be credited towards another model if we are unable to repair or replace your original item/model.

**8 WAYS TO SUCCESSFUL TINTING!**

**A TINT POT SYSTEM**

9 Unit Tint Pot

1. Be sure to test your tint unit. Use a thermometer to check the temperature of each dye pot in your unit and make note of any differences. Remember, a variance as small as a few degrees will change the outcome.
2. Colours should be placed in exact positions in a tint unit to account for the differences in temperature within the unit.
3. Be sure you have completely emptied capsule before using.
4. Use heat transfer fluid — not water. Water does not distribute heat evenly, nor does it keep the tint unit at a consistent temperature, unless the tint unit was specifically designed to work with water.
5. Check that the fluid levels in the tint unit are correct. Incorrect fluid levels will affect temperature.
6. Be sure that your heat transfer fluid is fresh. If your tint unit has boiled over, the transfer fluid will break down and must be changed. Other signs of ineffective fluid are a “rusty” or discoloured appearance, or a distinct, unpleasant odour.
7. Make sure the dyes are stirred and sides of pot are scraped before heating up each day.
8. Make sure you are using a clean lens uncontaminated by other chemicals in the lab.

# SCREW IT IN, SNAP IT OFF!

FRAME REPAIRS IN A SNAP!

# Snapit™ frame screws

Snap-it™ stainless steel screws have a unique, extra-long feeder tab that makes handling screws a cinch and repairs, mounting and assembly work a pleasure. After a screw is inserted into a hinge or eyewire the long feeder tab simply snaps off with just your fingers. The screw is left with a smooth finish to eliminate clipping and filing. Snap-it's™ extra-long feeder tab will also self align any hinge or eyewire barrel. Eyewires, Hinges, Spring Hinges, Self Aligns, Self Taps, with Thread Lock.

LAB SUPPLIES

**SPECIALTY NOSE PADS**

All styles available in snap and screw where applicable unless noted.

**PROTECT** **ULTRA** *Figure 8* | **ULTRA** symmetrical

**ULTRA** NOSE PAD FACTS...

- ▶ Made from German Thermoplastic Polyurethane (TPU)
- ▶ The hollow design of the nose pads decreases the moisture on the nose caused by sweat that is typically associated with traditional full-surface pads and helps to prevent skin allergies and acne, making them great for people with sensitive skin.
- ▶ TPU is easy to clean, combined with limited surface contact with the skin, the nose pads significantly decrease oil and bacterial build-up.
- ▶ The Nose pad's frosted surface, together with its premium cushion design, prevents glasses from slipping on the nose as well as allows for greater ease in breathing for the wearer.

## DISPLAY SYSTEMS

Introducing the Protekt™ Optical Display System. This new system utilizes stainless steel and anodized aluminum componentry to create an updated and contemporary dispensary look. Frames are held by the patented Eyeglass Support Pod (ESP) which allows frames to be displayed in several different ways;

1. By the bridge.
2. By the temple tips
3. By the temple tips (thin frames) and
4. For clip-ons.

This flexibility combined with various mounting options allow a dispensary to be re-created and refreshed at no additional cost! Long lasting componentry does not crack, scratch or discolour over time. Many accessories available including shelves, mirrors and free standing options. Make the Protekt™ Optical Display System part of your new dispensary.

**DISPLAY RODS**

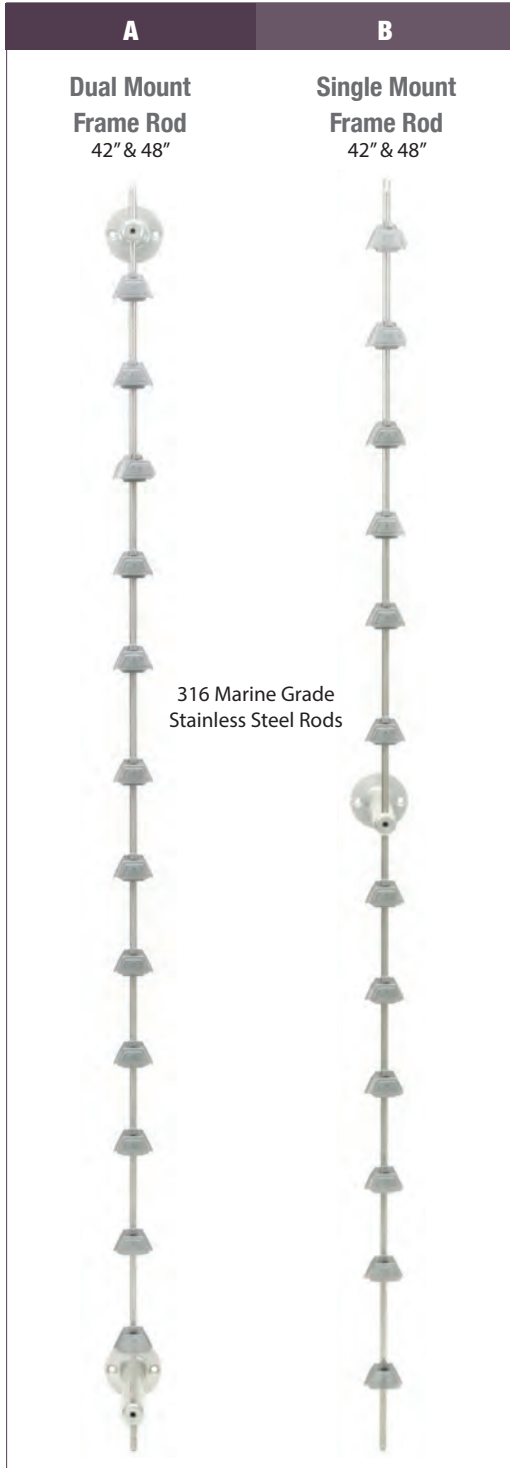

The patented **Protekt™ Display System** includes 316 marine grade stainless steel rods for exceptional strength and durability, and allows for two different mounting methods; wall or counter/valance.

Typically frame rods are anchored by two mounting points. Our Wall mount allows the rods to be mounted typically or by one centre point. Mounting by one center point gives great flexibility in varying rod placement.

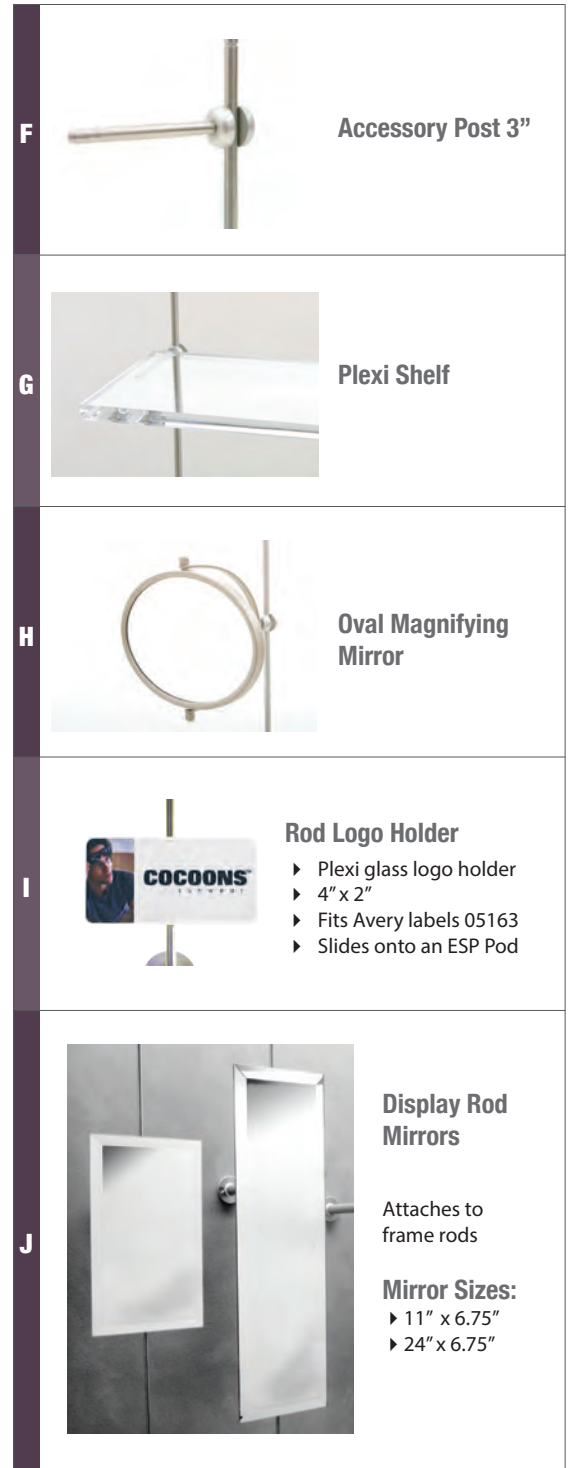

**MOUNTS ARE ALSO AVAILABLE IN TWO LENGTHS:**

The 2" mount holds the frame close to the wall allowing frame detail to be more easily seen.

The 7" mount holds the frame further from the wall which allows the frames to be displayed by the bridge with the temples in the open position.

## PEDESTAL DISPLAYS

With the Protekt™ Eyewear Support Pod (ESP) System, you have the flexibility to display your frames in three different ways, by the bridge with temples open, by the bridge with the temples closed or by the temples themselves. The ESP's are completely modular so you can have your frames facing straight ahead or slightly twisted to one side or the other. You can also increase and decrease the spacing between your frames on the rods.

The ESP's are removable, so once a frame is sold, its pod can be removed so there is no misconception of theft. You also have the choice of how many frames you wish to display from season to season, without having open gaps in your display.

**G**

5 pc - 15"   4 pc - 12"   2 pc - 6"   3 pc - 9"

**H** **Display Rocks**  
9" and 12" rod lengths.  
Each base is unique.

Pod Colour Choices: Grey, Copper, & Clear. See Display Rod Page.

## DISPENSING MIRRORS

Add style to your dispensary with our high quality beveled counter and wall-mount mirrors with a polished chrome finish. Counter mirrors feature weighted and padded bases for extra stability, while the wall-mount mirrors come equipped with a tilting rod to keep fingerprints off the glass. Choose from a traditional oval shape or an inverted trapezoid shape which is perfect to frame a face for eyeglass dispensing.
